

WELCOME TO OUR DECEMBER NEWSLETTER!

In the year coming to a close, we have many reasons to be proud of the results achieved: in addition to positive financial trends, we have almost completely digitalized business processes and improved services and relations with tenants and our business partners.

In our December newsletter, apart from the corporate news, we also introduce you to the diplomatic activities of the famous Mihajlo Pupin, personal friend of USA President Woodrow Wilson and a remarkable man who managed to gather all Serbian countries within the Yugoslavia borders.

In addition, we briefly focus on the bilateral relations between Serbia and Finland, the country which marked its Independence Day on December 6.

We are looking forward to the new 2022 with great enthusiasm. May it bring you good health, joys of life and success in all business activities!
